INTRODUCTION:

We are going to implement an online fast food ordering website. In this website customer can view available food and order a food. An admin on backend can handle the order and customer queries.

PROJECT FEATURES:

An admin can

- Login.
- Add, display, delete and update category.
- Add, display, delete and update food.
- View the status of order.

A customer can

- View Available food.
- Order Now.
- Cancel order.

TOOLS:

1. Front end:

There are user-friendly webpages to interact with application. As explained early.

- HTM
L
- CSS •

Etc.

2. Backend:

- MYS
QL
- PHP
•

Etc.
